Related post: what you should know before moving to the new financial year if you still have doubts, then check out this video for details More read: Take a look at other counting tutorials on APNITATE you can customize the invoice, delivery notes and other order vouchers Using the options available in the invoice setup screen. Apnitally has received many calls related to this, so here's a quick post on how to restart invoice numbering as it moves into the new financial year. Allow all fields to be changed during the entry that the default order/delivery note entries that appear on the invoice can be changed during the invoice entry. 1. Provide additional descriptions for the ledger name Enable this option to specify the description for each ledger selected in the accounting invoice entries. The connection to access the same will be available at the bottom of the page. IRN: Invoice reference number (IRN) of the e-invoice. Step 7: a pop-up will appear on the screen, which requires confirmation from the user. Your numbering would start at one. Providing number and type of packages enables this option to specify number. Click the "Yees" button to proceed, which will close the message window. Functionality of the Statutory option Calculate tax on the current subtotal Enable this option to calculate tax on the current subtotal value, not the total inventory value. All invoices received by the selected GSTIN are displayed. Note: once the E-INVOICE details are self-populated in the GSTR-1 module are changed, the source will not appear. Then as "E-invoice", and the three columns, the source, Irn and Irn Date become empty. The various E-INVOICE details that have been in the Stars-1 module they will be displayed in the Excel file. The following screen will be displayed. Enable the required options. Use batch expired for all escort elements by default, this option is set to Sá-. The credit period specified in the party registration book will be automatically automatically By default on Bill's wise details screen. The summary summary automatically generated by the GST portal at 30 minutes intervals. Disable this option so as not to include batch expired in the list of lots displayed at the time of the item. Set it on and you would get a new screen. 360 degree customer support. If you try to generate the summary before 10 minutes have passed, you will notice an error message at the top of the page. You can cheat after a minute. If you wish, go to the column of the prefix and add the date like 1-4-18 and add 18-19/ or to/ 18-19/ in this column. The sales voucher for the invoice that number your new numbering style is ready. Easy E-invoicing with Cleartax Easy Erp Integration. Allow the modification of tax details for VAT enables this option to change the tax details for VAT. Note: By default, the IRN and IRN Date columns will be hidden. hidden.
